

Technical Fire Safety Bulletin No 3

Subject	A27 notices in Schools
Date	2/03/2007
Originator	Julian Parsons
Review Date	26/6/2009

Recent discussions and investigations about schools have shown an issue with identifying who is the responsible person. A lot depends on what type of school it is: Grant maintained Independent, Local education Authority Controlled, etc.

If it becomes necessary to serve an Enforcement Notice on a school it is essential to serve one or more A27 Notices, in order to identify who is the responsible person. Further guidance and access to legal opinion is available through the TFS Policy and Implementation Manager or the TFS Procedure manager.
